

FILIP VELGHE

Filip Velghe is Master of Science in bioscience engineering with specialization in environmental technology at Ghent University and Master of Science in Physical Land Resources with specialization in soil science. He is project engineer at Biogas Consulting & Support (BCS) and is responsible for anaerobic lab tests and follow-up of full-scale AD-plants. He is author or co-author of several scientific articles on anaerobic digestion. Before OWS, he worked 2 years as coordinator and technological advisor of Biogas-E, a non-profit organization promoting the use of anaerobic digestion in agriculture.
